TRANE

TRANE UNIVERSITY™

Authorized Training for Trane Systems and Solutions

Ingersoll Rand

TRANE UNIVERSITY™

AUTHORIZED TRAINING FOR

TRANE SYSTEMS AND SOLUTIONS

Our industry-leading training empowers customers to develop a high level of proficiency operating and optimizing their equipment, controls and building systems.

Comprehensive, direct from Trane

The Trane approach is to build knowledge systematically and cost-effectively with a proven curriculum and support materials, expert instructors and structured learning. Courses and resources are combined to form personal development progressions based on career, function, role or type of equipment owned.

Initially developed to build technical competency for Trane employees, this training program is geared to establish the wide range of essential skills required by service or controls operators, owners, engineers and technicians, from operation fundamentals to advanced system design.

An effective way to learn

Trane University™ training integrates innovative teaching technologies for instructor-led, distance learning and online courses, webinars and resource materials. Highly experienced, professional instructors provide interactive and hands-on training using the latest equipment.

Your access to an extensive knowledge base

Course materials draw on the expertise of Trane applications engineers, product engineers, technical support engineers and product development teams who are familiar with every aspect of Trane equipment.

Accredited continuing education

Trane University is accredited by the International Association for Continuing Education and Training (IACET). Trane University complies with the ANSI/IACET Standard, which is recognized internationally as a standard of excellence in instructional practices. As a result of this accreditation, Trane University is authorized to issue the IACET CEU.

Convenient, easy to register

Visit Trane.com/traneuniversity to browse classes and training packages. You may register for classes online.

Some Technical Service Training courses can be customized at your request, and conducted at a Trane sales office or at your site. Call 855-803-3563 to discuss your training needs.
