Nexia™ Home Intelligence

Run your home from wherever life takes you.

It's Hard To Stop A Trane.®

Your home comfort, security and efficiency
are now in your control.

Nexia™ Home Intelligence from Trane® and Schlage® can make everything in your home speak one simple language by combining wireless technology with simple web access.

READ ONLY

Wherever you go, Nexia™ Home Intelligence offers a new way to take care of your home and the people in it. Now you can adjust your home's heating and cooling, unlock the front door, turn on the lights, manage home security, even monitor and control energy use, remotely from most web-enabled mobile devices.

It's all of the promises of home automation finally made simple and accessible. Nexia™ Home Intelligence delivers a more connected home life.

Innovation from two of the brands you've grown to trust for over 100 years.

For decades, Trane® and Schlage® have been creating solutions that make homes more comfortable, safe and efficient. Their reputations for premium quality and innovation provide the foundation for home automation and management with Nexia™ Home Intelligence.

Nexia ties together the things that matter most.

- Come home to your ideal environment by adjusting the temperature before you arrive.
- Reduce energy use and costs by putting your comfort system into an energy savings mode when you're away.
- Enjoy the convenience and security of text and email alerts that remind you it's time to change the filter.
- To keep your Trane system running at peak efficiency, receive routine maintenance reminders.
- Let your dog walker in each day during a specific time frame with a recurring code.

Your link to comfort and efficiency starts with a smart control.

Trane® ComfortLink™ II Control

The ComfortLink™ II Control does so much more than regulate your heating and cooling. It's also an air quality management tool. It's a digital photo frame and up-to-the-minute weather station. It's a fashionable addition to your decor and a central planning center dedicated to your year-round comfort. And it ties into Nexia™ Home Intelligence so you can maintain the perfect home environment no matter where you happen to be.

With the touch of a button, you can check the weather and know what it takes to be comfortable outside as well as indoors.

Monitor indoor and outdoor temperatures and your system use over time to optimize energy and comfort.

Enhance indoor air quality with Quick Clean and Allergy Clean cycles that temporarily boost your air filtration, maximizing clean air output for 3 hours at a time or 24 hours at a time, respectively.

Trane® ComfortLink™ Control

Your independent Trane dealer specializes in creating your ideal home environment. Now your Trane dealer can also give you an unprecedented level of control and security thanks to the Trane ComfortLink™ Control and Nexia™ Home Intelligence.

Control on the go.

When away on vacation, you can check your home's temperature settings and adjust to save energy. You can have greater peace of mind while at the office knowing your children have arrived safely to a warm and well-lit home. On the beach, or at work, you now have remote capability to control your home's comfort, safety and efficiency.

Schedule comfort to suit your lifestyle.

Schedule the temperature to change automatically before and after entertaining guests, or turn out lights and adjust the temperature automatically after you go to sleep.

Nexia's online portal is a powerful area where you can automate and monitor your system's efficiency.

Nexia™ Home Intelligence gives you greater peace of mind, especially for those times when you might have forgotten to turn off a light or to lock the front door.

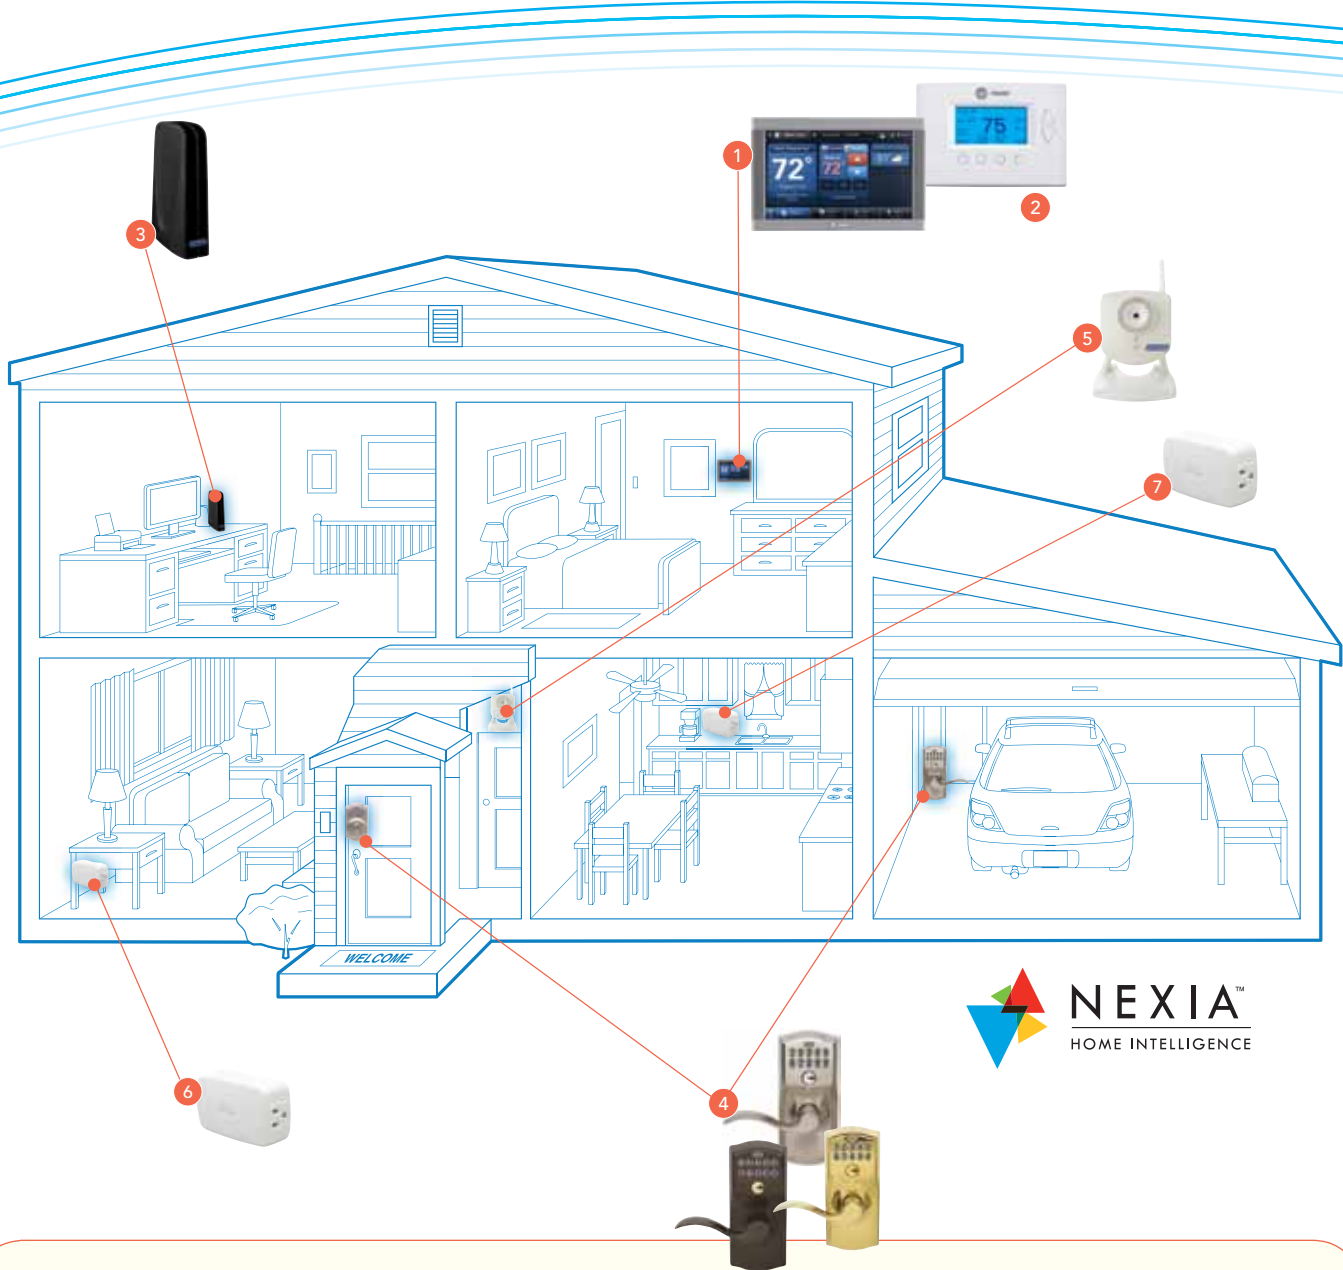

Reduce energy consumption up to 15% with an energy savings schedule.*

Advanced home automation made simple.

Manage your home your way now and expand as your needs grow.

Nexia™ Home Intelligence allows you to affordably manage your home your way, by utilizing Z-Wave®, a radio frequency-based technology that transforms a single device into an intelligent network that can be securely monitored and controlled wirelessly. You can start with a few Z-Wave components you may already have. But, you don't

have to stop there. With Nexia, you can expand on the number of devices you control anytime you want by simply adding more as your needs grow. The Nexia system can accommodate 200 Z-Wave enabled devices, so you can customize and build your home automation system gradually with lighting and small appliance modules, cameras, locks, sensors and controls.

Z-Wave® is a registered trademark of Zensys Inc. and/or its subsidiaries.

It's Hard To Stop A Trane.®

1 Trane® ComfortLink™ II Control

- Monitor indoor and outdoor temperatures and your system usage over time to better manage energy and comfort.
- Raise or lower the temperature in your home remotely.
- Create heating and cooling schedules to save energy when no one is home.
- Breathe cleaner air. Quick Clean and Allergy Clean cycles act as a temporary boost to your air filtration, maximizing clean air output for 3 hours at a time or 24 hours at a time, respectively.
- Check current outdoor and indoor temperatures, 5-day forecasts, weather alerts, and local radar imagery on the easy to read, high-definition color touch screen.
- Set Nexia to send you text or email alerts when filters need to be changed or service is required.
- Updatable software lets you add the latest features and upgrades as they become available.

2 Trane® ComfortLink™ Control

- Raise or lower the temperature in your home remotely.
- Use humidity sensor and enhanced dehumidification mode to create a more comfortable environment.
- Improve comfort during extended "off" periods via air circulation and moisture removal options.
- Set specific heating and cooling schedules with the Nexia interface to operate at peak efficiency.
- Enjoy the convenience of a 7-day program with up to 4 settings per day.
- Set Nexia to send you text or email alerts when filters need to be changed or service is required.

3 Nexia™ Bridge

- The brain of the system that securely connects most in-home Z-Wave® enabled devices to the Nexia™ Home Intelligence web portal.
- Manages communication on your Z-Wave® network.

4 Schlage® Home Keypad Deadbolts and Levers

- Store up to 19 unique user codes and never lose your house keys again.
- Grant access to your home when you can't be there with a scheduled code.
- Receive text message or email alerts when specific codes are entered at the door, to know when your children arrive home safely from school.
- Set 24-hour temporary codes from most web enabled cell phones.
- Choose from 3 finishes to complement your home decor: Bright Brass, Satin Nickel, and Aged Bronze.

5 Schlage® Home Indoor Camera

- The Schlage® Camera lets you remotely see what's going on at home through most web-enabled cell phones and computers.
- Video recording capability.

6 Schlage® Home Dimmer Module and

7 Appliance Module

- Turn lights on, off or dim them remotely anywhere by phone through the Nexia™ Home Intelligence web portal.
- Incorporate lighting into schedules while on vacation to make your home appear lived-in.
- Reduce energy use by turning off small appliances when not in use or after you leave the home.
- Multiple Z-Wave® appliance modules can be added to the Nexia™ Home Intelligence system as needed.

Independent Trane Dealers value reliability as much as you do.

Your independent Trane Dealer knows his or her reputation is made at every sale, and with every installation. Therefore, they are as personally invested in your comfort as you are, and take great pride in creating your perfect indoor environment.

Trane dealers are some of the most highly-trained in the business, with advanced technical skills to optimize every installation and solve any issue.

They have an extensive understanding of the movement and conditioning of air,

and the expertise to create a perfectly balanced, ultra-efficient system for every home. Trane dealers believe in doing the job right, every time. Otherwise, they wouldn't be Trane dealers.

The products they sell provide peace of mind as well, with robust, no-nonsense warranties. Additional warranty details are available from your dealer. So relax and get comfortable. You have a Trane.

What you need to get started with Nexia™ Home Intelligence.

- An active broadband internet connection and router with at least one available port.
- A computer with internet access and a supported internet browser.
- A valid email address.
- A compatible cell phone with an internet data plan and a SMS (text message) plan for remote features.

Nexia™ Home Intelligence system requires a monthly subscription to enable remote access via most web enabled cell phones and computers.

Experience a complimentary 6-month* trial when purchased from a Trane dealer.

** Subscription service fee applies after 6-month trial period.*
