FOR IMMEDIATE RELEASE

Trane Leader Speaks about Environmentally Aware Retail Facilities at the Switch to Green Conference in Warsaw

Warsaw, (November 8, 2010) — Commercial buildings are significant consumers of energy and major contributors to global greenhouse gas emissions. Organizational leaders are discovering the importance of employing green building practices and principles to raise the level of their buildings' operational performance and to make the buildings more environmentally sensitive.

Marcin Manuszak, sales director for Trane Polska in Poland, Ukraine, Belarus and the Baltic States, will be speaking at the upcoming Switch to Green Conference as part of a panel discussion, *E-Retail*. The panel will discuss the costs and benefits of environmentally aware shopping centers.

During the session, Manuszak will present recommendations for implementing green and sustainable energy and operational practices within shopping center facilities. His discussion will feature first-hand expertise and case examples of energy conservation measures that are making environmentally considerate facilities a reality.

Details of his presentation are:

When: Tuesday, November 9 at 16.30

Where: Hilton Warsaw Hotel

Conference Web site: http://www.eurobuild.pl/switch_to_green2010

About the Switch to Green Conference

Switch to Green is a one day conference dedicated to the complex issues of green and environmentally aware real estate. During the panel discussions, attendees will be able to learn about theory and practice of sustainable design. The conference is organized by Eurobuild Conferences - part of "Eurobuild CEE" (www.eurobuildcee.com), a media company based in Warsaw with offices around Central and Eastern Europe. It was set up in 1998 and publishes *Eurobuild CEE* magazine, a monthly publication covering the CEE region's real estate and construction industry.

###

About Manuszak
