

TRANE®

Color Selector

**Cabinet Heaters, Fan-Coils,
Unit Ventilators, & Water-Source
Heat Pump Consoles**

*Lasting beauty plus quality
Trane equipment ...*

Five color choices—applied as the final baked powder finish—are available on Trane Force-Flo™ cabinet heaters and UniTrane™ fan-coil air conditioners. Trane's color selection allows creation of distinctive interiors that provide flexibility. Unit ventilators are also available in five colors and water-source heat pump consoles are available in three colors.

Trane's painting process assures an even quality finish. The baking period sets the powder into a flawless finish. Also, our products are constructed of phosphatized steel. This helps stop rust creep if the unit is ever severely scratched.

Attractive finishes by Trane ...

*for cabinet heaters, fan-coils, unit ventilators,
& water-source heat pump consoles*

These Trane products are exclusively for in-the-room installation. Our contemporary design and styling, with our baked-powder finishes offer color coordination with any interior.

* Water-source heat pump consoles available in these colors only.
