

Cost savings and charting up LEED® points have never been easier

The new Trane® Series R™ Helical Rotary Chiller, model RTHD with Adaptive Frequency™ Drive – because chillers do not work at full capacity 24/7.

Superior full-load and part-load performance is your guarantee for reduced operating and lifecycle costs. Plus a simple design that is virtually maintenance free, reducing your bottom-line has never been easier. All these, delivered with unrivalled silent performance and our trademark EarthWise™ systems reliability.

Superior Efficiency

High Reliability

Application Versatility
