Fast and Reliable Temporary Cooling and Heating Solutions

Heat management in data centers

A dependable cooling management strategy is essential to meet the unpredictable needs of fast-growing data centers. Server density in existing and new data centers is increasing to meet growing demands. Insufficient cooling capacity can cause costly disruptions and negatively impact quality and productivity.

Data center owners and operators need contingency planning to ensure uninterrupted operation. A fast and reliable temporary cooling solution is the right choice. You can mitigate risk during emergencies and planned shutdowns with Trane Rental Services.

Comprehensive and tailored rental cooling solutions

Every data center is unique and so are their cooling needs. Our comprehensive temporary cooling approach includes the selection, installation, commissioning and operation of the right equipment to help you realize your business needs and meet operational objectives such as:

- Adapting to ever-changing requirements

- Minimizing disruption in the case of failures
 - Controlling cost of ownership and operation.
- Trane equipment is carefully selected to support your individual requirements. The delivery and installation of rental units are scheduled to integrate seamlessly into your operation.

Why Trane Rental Services?

- A large, young and well maintained fleet of units
- A complete line of accessories for quick and easy installation
- A wide service network with experienced factory authorized technicians.

Turnkey services from start to finish

Trane is a global leader in the manufacture and supply of HVAC equipment. We engineer and build the equipment we use for rental applications. Our turnkey services include equipment supply, setup, monitoring and decommissioning. Besides, you can depend on Trane technicians to keep your installation running smoothly. We have everything you need to sustain your data center operation at its optimum.

Cooling and heating solutions from a trusted partner

Trane has one of the most advanced fleets of rental chillers in Europe and the Middle East. With 130 sales and service locations and over 1000 of the best-trained sales engineers and service technicians in the industry, Trane is in the best position to serve your special applications and seasonal needs.

We provide fast, safe and cost-effective solutions. Our team of account managers, engineers, service technicians and logistics professionals can rapidly transform the equipment you need into a smoothly functioning system that will exceed your expectations.
