

TRANE®

Rental services for ice rinks

*Fulfilling your unique temporary cooling needs
for a unique ice experience*

Rapid and reliable cooling

Although temporary and permanent ice rinks are similar in design, a temporary rink's components must be mobile. The specification and installation of a temporary rink is highly specialized. Trane Rental Services has the right equipment and expertise to build ice rinks and keep them running without disruption, ensuring the best possible customer experience.

Special cooling solutions for special events

Trane engineers work with your project team to initially assess your cooling requirements. Working closely with project managers, the equipment is carefully selected to match the needed cooling capacity. The delivery and installation of all rental units are scheduled to integrate fully into your project plan.

Why Trane Rental Services?

- Trane has one of the youngest rental fleets in the industry. This means you are sure to get a reliable, safe and efficient installation.
- Our rental equipment is fitted with special accessories for easier installation and quicker connections to glycol solution and power supply.
- Our wide service network is staffed with experienced factory-authorized technicians.

Turnkey services from start to finish

Trane is a global leader in the manufacture and supply of HVAC equipment. We engineer and build the equipment we use for rental services. Our turnkey service includes equipment supply, set up, monitoring and decommissioning. And you can depend on Trane technicians to keep your installation running smoothly. We have everything you need to make your next event an outstanding success.

Cooling solutions from a trusted partner

Trane has one of the most advanced fleets of rental chillers in the Europe, Middle East and India region. With 130 sales and service locations and over 1,000 of the best-trained sales engineers and service technicians in the industry, Trane is in the best position to serve your special applications and seasonal needs.

We provide fast, safe and cost-effective solutions. Our team of account managers, engineers, service technicians and logistics professionals can rapidly transform the equipment you need into a smoothly functioning system that will exceed your expectations.
