Trane Keeps Customers Cool with More Than 200 Available Rental Units

Brussels, Belgium, 24 September, 2013 – Temporary cooling needs can arise at any time in a building’s lifecycle. Because building owners and operators require quick action and support when it happens, [Trane](#), a leading global provider of indoor comfort solutions and services and a brand of [Ingersoll Rand](#), continuously expands its rental fleet.

Cooling is critical for most businesses, whether it is to create the right indoor environment for buildings or to provide reliable cooling for industrial processes. With Trane Rental Services, facilities can depend on reliable temporary cooling solutions for a variety of applications, including emergency and planned situations.

With more than 200 rental chillers currently available in Europe, Middle East and India, Trane can meet the specific temporary cooling requirements of its customers quickly and effectively. Since launching the rental services, the fleet has more than doubled in a year. By 2014, it is projected to double again and reach more than 400 units. Trane offers a modern fleet of chillers that are specifically engineered and built for rental purposes.

Trane Rental Services brings solutions to a wide variety of facilities including healthcare, data centers, industrial, hospitality and commercial buildings. Trane has served customers’ needs ranging from seasonal needs and special events to emergencies and planned shutdown. The units are selected for fast installation and easy operation.

After installation, an extensive service network of factory authorized Trane technicians ensures smooth operation throughout the duration of the rental period.

“Trane Rental Services offering has grown fast since its introduction in late 2011 responding to our customers’ needs for efficient and reliable temporary cooling supported by a wide, experienced service network,” said Sai Srikanth, heating, ventilation and air conditioning controls, turnkey solutions and service portfolio leader for Trane in Europe, the Middle East, India and Africa.

“As an original equipment manufacturer and backed by 100 years of building application expertise, we have the capability of providing and installing temporary cooling solutions with efficient and reliable rental fleet.”

For more information, please see the [video](#) featuring one of our customers or visit the [Trane Rental Services](#) portal. The online portal enables customers to easily obtain information on chiller rental range and availability in different countries across Europe, the Middle East and India.
