

# Technical Service Training

*Trane expertise. Your success.*

*Engage  
Learn  
Achieve*

## WHO SHOULD ATTEND

HVAC service and maintenance technicians, facilities management, mechanical contractors and anyone responsible for operation and maintenance of HVAC equipment

## WHAT YOU WILL LEARN

- HVAC concepts
- Unit controls interfaces
- Equipment operation
- Maintenance and repair
- Diagnostics and troubleshooting
- Optimizing performance

### **Targeted learning, direct from industry experts**

This Trane-authorized professional education is the same training program that prepares Trane technical teams to achieve optimal efficiency for HVAC equipment. Experienced Trane University instructors work with you one-on-one as you learn to monitor, troubleshoot and maintain your Trane equipment for trouble-free performance.

### **Learning paths focus your training**

You will develop a high level of proficiency with Trane systems using learning paths that systematically cover each subject area. The curriculum is tuned to individual experience levels—from HVAC professionals to those who have been in the field less than a year.

The Technical Service Training team utilizes innovative teaching technology for instructor-led, distance learning, online courses and supplementary resources. Interactive and hands-on experience is provided using the latest production models and Trane-developed tools.

**Our courses include:**

- Air Conditioning Service
- Airside Systems Service
- CenTraVac® Electronic Controls
- CenTraVac® Mechanical Overhaul Service
- CenTraVac® System Operation and Maintenance
- Chilled Water Systems Service
- Commercial Systems Service
- CVHS/M Chiller Operation
- HVAC Electrical Troubleshooting
- IntelliPak® I & II Rooftops
- Precedent® Voyager™ Rooftops
- ProSpace VRF Service & Maintenance
- RTAA Rotary Chillers
- RTAC Rotary Chillers
- RTAE/ACRA Rotary Chillers
- RTAF Rotary Chillers
- RTHD Rotary Chillers
- RTWD Rotary Chillers
- Scroll Chiller Service and Troubleshooting
- Single-Stage Absorption Chillers

*\*Course dates are regularly updated and are subject to change without notice. Please see [Trane.com/traneuniversity](https://trane.com/traneuniversity) for the current schedule.*

**Access to an extensive knowledge base**

Highly experienced professional instructors are knowledgeable about every aspect of Trane equipment. They have direct access to Trane applications engineers, product engineers, technical support engineers and product development teams.

Trane University™ is accredited by the International Association for Continuing Education and Training (IACET). Trane University complies with the ANSI/IACET Standard, which is recognized internationally as a standard of excellence in instructional practices. As a result of this accreditation, Trane University is authorized to issue the IACET CEU.

**Courses are convenient and it's easy to register**
