CITY MULTI Startup and Service Essentials

Required Prerequisite: CITY MULTI Installation Essentials online training

Course Description: This course provides hands-on experience building systems using Diamond System Builder™ design software. Participants learn Mitsubishi Electric’s warranty process and the steps to register products once they have been installed. The concepts of integration and centralized control are discussed as well as the proper steps for system start-up. Proper service and diagnosis procedures are also covered.

Hours: 2 days from 8:30 AM – 4:30 PM

Price: \$480.00 | **CEUs:** 2.1 | **NATE:** 24 hours

July 19-20	October 18-19	November 15-16
September 13-14	November 1-2	November 29-30
October 11-12		

Advanced CITY MULTI Service

Required Prerequisite: CITY MULTI Installation, Startup, and Service Essentials

Course Description: This course covers the service tools necessary to perform operational monitoring of R2- and Y-Series CITY MULTI equipment. Participants learn the refrigerant patterns of both systems and the acceptable Maintenance Tool values during operation.

Hours: 2 days from 8:30 AM – 4:30 PM

Price: \$880.00 | **CEUs:** 2.1 | **NATE:** 24 hours

August 16-17
December 13-14

Commercial Controls

Prerequisite: CITY MULTI Installation, Startup, and Service Essentials

Course Description: This Commercial Controls Course covers CMCN products and focuses on the control capabilities, initial set up, and servicing of the CITY MULTI Controls product line. The course is for start-up and Service personnel and combines classroom instruction with hands-on exercises to reinforce theory with practical application.

Hours: 2 days from 8:30 AM – 4:30 PM

Price: \$320.00 | **CEUs:** 1.4 | **NATE:** 16 hours

September 20-21
October 25-26
