

**Trane FreshEffects™
Energy Recovery Ventilator**
A breath of fresh air for your home.

It's Hard To Stop A Trane.®

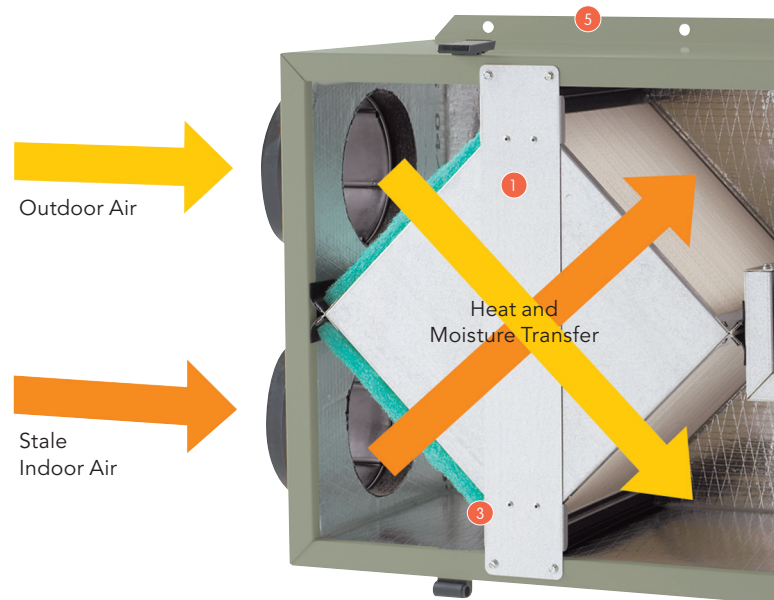

A whole-house solution for a whole lot of fresh air.

Need a reason to invest in FreshEffects™? We'll give you 6 of them.

When you see the Trane name, you can trust that you're getting the utmost in quality, comfort, reliability and durability, no matter the product. And Trane FreshEffects™ is no different. Here's exactly why:

- Engineered to operate quietly, making your home more comfortable, peaceful and fresh.
- Delivers fresh, clean comfort, which is important considering research shows people spend approximately 90% of their time indoors.
- Minimizes indoor pollution generated by vapors from solvents, paint, adhesives, carpets and upholstery, odors from cooking, pet and bathrooms, as well as, the carbon dioxide we naturally exhale.
- Designed with indoor air pollution in mind, especially considering it ranks #5 on the EPA's list of environmental risks to public health.
- Perfect for newly constructed and remodeled homes, as 30% of them have indoor air quality problems.
- Ideal for homes with children, considering children inhale 50% more air per pound of body weight, which makes them especially sensitive to air quality problems.

Features and components may vary by model and are shown for illustration purposes only.

A fresh approach to an old problem.

In order to achieve more energy efficiency, modern homes have become so tightly sealed that indoor air pollutants get trapped inside. Fortunately, there's a way to bring in fresh air and improve indoor air quality, without sacrificing energy efficiency, Trane FreshEffects Energy Recovery Ventilator. It provides a whole-house solution for fresh air ventilation. Trane FreshEffects exhausts stale indoor air and brings in fresh, preconditioned, outdoor air, so your home can be a cleaner, more enjoyable place to live. Not only that, but Trane FreshEffects also decreases the level of odors, chemical vapors and naturally occurring gases that become trapped in tightly sealed homes. Plus, with its quiet operation and durable components, you can count on fresh air from Trane FreshEffects for years to come.

1 Innovative Crossflow Energy Transfer Technology

Trane's high-performance core transfers heat and moisture from exhaust air during cold weather. During hot, humid weather, it pre-cools and dehumidifies incoming air.

2 High-Performance Motor

Engineered with permanently lubricated bearings for low maintenance and longer motor life.

3 Slide-Out Filter

Easily accessed for quick cleaning using an ordinary household vacuum cleaner.

4 Powder-Painted Cabinet

A smooth, durable, high-gloss "appliance-like" finish.

5 Flexible Mounting

Installs easily and quickly in any position — in your attic, garage, closet or basement.

6 Adjustable Control

Provides automatic ventilation around the clock. The control may be adjusted for additional ventilation if desired.

Built to last. And last. And last.

Trane products are built with more than high quality and precision in mind. They're also built to last. Trane FreshEffects™ is another example of that commitment. Not only is Trane FreshEffects housed in a heavy-gauge steel cabinet for long life and durability, but it also uses innovative technology and high quality materials. So you can rest assured knowing it'll perform everyday, year after year.

Take comfort in our warranties.

Your investment in Trane FreshEffects™ is well protected with Trane's 10-year limited warranty on the heat transfer core and 5-year limited warranty on internal functional parts. Ask your independent Trane dealer for details on Trane's optional extended warranties.

Independent Trane dealers value reliability as much as you do.

Your independent Trane dealer knows his or her reputation is made at every sale, and with every installation. Therefore, they are as personally invested in your comfort as you are, and take great pride in creating your perfect indoor environment.

Trane dealers are some of the most highly-trained in the business, with advanced technical skills to optimize every installation and solve any issue.

They have an extensive understanding of the movement and conditioning of air, and the expertise to create a perfectly balanced, ultra-efficient system for every home.

Trane dealers believe in doing the job right, every time. Otherwise, they wouldn't be Trane dealers.

Ingersoll Rand Residential Solutions, a business comprised of well-known brands like Schlage and Trane, delivers safety, comfort and efficiency to homeowners throughout North America.
