Trane XR Air Conditioners
Comfortable, cool and smart.
Trane XR Air Conditioners.
Cool comfort summer after summer. Trane reliability year after year.

When it comes to heating and cooling homes, people view Trane equipment as the most reliable and longest lasting in the industry.* People expect more from a leader, and Trane delivers.

- Winner of the Dealer Design Award presented by Air Conditioning, Heating & Refrigeration NEWS, the industry’s leading trade publication, for the fifth year in a row.
- Winner of the David Weekley Homes’ prestigious Partners of Choice Award for Service and Product Performance.

Trane XR air conditioners deliver what Trane is all about: incredible comfort, with incredible reliability. Our air conditioners work hard, summer after summer, because we insist on only premium materials, from the smallest zinc-coated screw to our own proprietary Climatuff® compressors. When you buy a Trane, you’re buying more than an air conditioner. You’re buying a commitment to your perfect indoor environment.

*Independent 2012 HVAC Claim Study, Funded by Ingersoll Rand
You’ll appreciate the energy savings from your Trane XR Air Conditioner the day your dealer installs it, and for many years to come.

When shopping for a new system, efficiency is one of your most important considerations. An efficient system will not only lower your energy costs, it will also lower your impact on the environment.

System efficiency is measured in SEER, which stands for Seasonal Energy Efficiency Ratio. Similar to miles per gallon in a car, SEER is a measure of the overall efficiency of a complete heating and cooling system on a seasonal basis. The higher the SEER, the greater the system’s energy efficiency, and the lower the overall carbon footprint of your household.

Stay comfortable. Stay energy smart.

Trane believes in your ideal indoor environment. That’s why every XR air conditioner is powerful enough to keep you comfortable in even the worst weather. But we also believe in responsible energy use, which is why we build our air conditioners to use energy wisely. They operate so efficiently, in fact, that installing your XR air conditioner as part of a qualifying Trane system may earn you an energy tax credit of up to $500.*

When you install a Trane system, you’re doing something great for your family. And your planet.

* $300 maximum for a qualifying air conditioning system, heat pump or packaged system, $150 maximum for a qualifying furnace, and $50 maximum for a qualifying product with an advanced circulating fan. Tax credit is subject to IRS regulations. Consult a tax professional for advice on tax preparation.
Take a closer look at Trane XR air conditioners.
See how smart comfort can be.

1. **Climatuff® Compressor**
   Made to Trane’s exacting specifications, it is quiet, efficient, and known throughout the industry for reliability.

2. **Spine Fin™ Coil**
   Trane’s proprietary coil is made of aluminum for greater resistance to corrosion and leaks. The patented design provides low air resistance and enhanced heat transfer for efficiency.

3. **DuraTuff™ Basepan**
   Manufactured to exacting standards and impervious to rust, corrosion, warping or cracking.

4. **Compressor Sound Insulators**
   Reduce operating noise for quiet, peaceful comfort. (most models)

5. **Corrosion-Resistant Fasteners**
   Zinc coated fasteners resist corrosion and keep rust from discoloring your XR air conditioner.

6. **Baked-On Powder Paint**
   A finish that is virtually indestructible even if metal gets dented. Maximum corrosion and rust resistant. Attractively blends with any architectural style and outdoor landscape.

7. **Full-Sided Louvered Panels**
   Protects from outdoor hazards and debris like leaves, tree branches and hail. Galvanized steel.

Built for reliability through and through.

The two hardest-working components in every air conditioner are the compressor and the coil. So needless to say, they have to be dependable.

The Climatuff® compressor you’ll find at the heart of every Trane XR air conditioner is a marvel of reliability, known throughout the industry for providing years of trouble-free performance. Built from only premium materials, the Climatuff has been tested in some of the worst conditions possible, to make sure it’s tough enough to wear the Trane name.

The other half of the comfort equation is Trane’s all-aluminum Spine Fin™ coil. Unlike traditional copper and aluminum coils, the Spine Fin coil is highly resistant to corrosion and leaks, yet still extremely efficient at transferring heat.

Together, your Climatuff compressor and Spine Fin coil will provide you with years of trouble-free comfort in even the worst weather.

Trane’s exclusive, patented Spine Fin coils have a much greater surface area to transfer heat. They also hold their efficiency after years of use and heavy dirt buildup.

XR16
The hottest days are no match for the XR16 with a SEER of up to 18.0. You’ll enjoy long life and incredible reliability thanks to the legendary Two-Stage Climatuff® compressor and patented, leak-and-corrosion-resistant Spine Fin™ coil. Installed as part of a qualifying system, most models of the XR16 are ENERGY STAR® qualified.

XR15
With a SEER of up to 17.0, the XR15 keeps you comfortable and energy efficient. The Climatuff® compressor and patented, leak-and-corrosion-resistant Spine Fin™ coil deliver years of trouble-free comfort. When installed as part of a qualifying system, most models of the XR15 are even ENERGY STAR® qualified.

XR13
A SEER of up to 14.5 means you’ll stay cool in the blazing sun, while still using energy wisely. With the reliable combination of Trane’s Climatuff® compressor and all-aluminum Spine Fin™ coil, you’ll enjoy your comfort for years to come.
A Trane matched system is one in which every component has been carefully designed to work together to maximize comfort and efficiency. By adding perfectly balanced Trane components to your XR air conditioner, you can enjoy cooler, drier summers, cozier winters, and a perfectly conditioned indoor environment every day of the year. All with remarkable energy efficiency. Configure your matched Trane system today, and fine tune your comfort.

**Air Conditioner:** Cools your home on even the hottest days with quiet, reliable comfort.

**Indoor Coils:** As air passes through the coil, it serves as a “heat exchanger,” working in conjunction with a furnace and heat pump to cool your home.

**Thermostat:** Your matched Trane system is controlled by an intelligent, reliable Trane thermostat. Programmable and non-programmable models are available to match any decor.

**Furnace:** Circulates cool air in the summer, and burns fuel to create and circulate warmth in the winter.

--- OR ---

**Air Handler:** Often found in milder climates, an air handler works with your XR air conditioner to circulate air in all-electric homes.
Optional equipment to maximize your comfort and peace of mind:

Air Cleaners: Available in a variety of models, from standard filters to highly efficient air filtration systems. Add a Trane CleanEffects™ system for the ultimate air filtration available.

Humidifiers: Add moisture to the air to alleviate dry skin and reduce static electricity.

Energy Recovery Ventilators (ERVs): Introduce fresh outdoor air while removing stale indoor air. Efficiently transfer heat and moisture from the exchanged air for enhanced comfort and energy efficiency.

Nexia™ Home Intelligence: Remote climate access through Nexia™ Home Intelligence is included with the Trane ComfortLink™ II Control. Nexia allows you to adjust heating and cooling in your home, and monitor and control energy use, all from wherever you happen to be, using your smart phone or web-enabled tablet or computer.

What is Trane Air™?

We’ve devoted years to producing air that has been flawlessly conditioned and meticulously cleaned. Air that feels fresh and crisp with each breath. We call it Trane Air, and you can experience it for yourself when you install the optional industry-leading filtration of Trane CleanEffects™.

Air that’s dirty and full of particulates can not only feel uncomfortable, it can cause breathing problems for family members and exacerbate existing respiratory problems like asthma and allergies. Fortunately, the exclusive .1 micron filtration of an optional Trane CleanEffects removes up to 99.98% of airborne pollutants from heated and cooled air, providing the most technologically advanced air filtration available. That’s welcome relief for everyone in your home.
Independent Trane dealers value reliability as much as you do.

Your independent Trane dealer knows his or her reputation is made at every sale, and with every installation. Therefore, they are as personally invested in your comfort as you are, and take great pride in creating your perfect indoor environment. Trane dealers are some of the most highly trained in the business, with advanced technical skills to optimize every installation and solve any issue.

They have an extensive understanding of the movement and conditioning of air, and the expertise to create a perfectly balanced, ultra-efficient system for every home. Trane dealers believe in doing the job right, every time. Otherwise, they wouldn’t be Trane dealers.

Take comfort in our warranties.

The XR Registered Limited Warranty terms* include: 10 year limited warranty on compressor, 10 year limited warranty on outdoor coil, and 10 year limited warranty on internal functional parts. An option to purchase transference of your Registered Limited Warranty is available. For all coverage options, check with your independent Trane dealer.

*Registered Limited Warranty terms are available when you register within 60 days of installation. You can register online at Trane.com or by phone at 800-554-6413, otherwise Trane’s Base Limited Warranty terms will apply. Base Limited Warranty information is found on Trane.com. Ask your dealer for full warranty information at time of purchase. Warranties are for residential and multi-family use only, some exclusions may apply.
