

It's Hard To Stop A Trane.®

Air Handlers

There's a revolution in air movement for every home.

The extraordinary Trane Hyperion™ air handler represents a substantial advance in air handling technology. Using 14 industry-exclusive patents, the Hyperion offers significant advantages over other air handlers, advantages like refrigerator-styled insulation made without exposed fibrous material, which virtually eliminates sweating and condensation as well as helping create a safer environment for your home.

Choosing the right fit.

Every component of our air handlers, from the smallest screw to the revolutionary unique Hyperion cabinet, has been carefully designed to deliver Trane's legendary reliability, innovation and efficiency with your complete comfort in mind. With two Trane air handler platforms from which to choose, there is sure to be one that will meet the needs of your household.

--	---

* The TMM and GMU/V air handlers are Upflow Only for use in wall, stud, or over the water heater applications.

Installation and cleaning made easier.

The Trane Hyperion air handler can be disassembled within a few minutes with only one tool, ensuring a quick installation so you can enjoy the benefits of Trane comfort as soon as possible. Plus, the cabinet can be cleaned fast and efficiently because the blower and coil assemblies slide out for easy access.

A CLOSER LOOK INSIDE A TRANE HYPERION™ AIR HANDLER.

Heating Options allow you to add either hydronic or electric heating without changing the cabinet.

- **Electronic Refrigerant Flow Valve** regulates the flow of refrigerant and provides compressor protection for maximum reliability and greater overall system life.
- **All-Aluminum Coil** is substantially more durable than conventional copper coils, for prolonged efficiency, longer system life and less chance of refrigerant leaking into the atmosphere.
- **Epoxy Coated Coil** This standard epoxy coated offering is the first of its kind in the industry and helps prevent odor and undesirable residue on the coil.
- Dedicated Control Board Pocket** provides easy access.
- **Fully Enclosed Insulation** between the cabinet walls prevents loose insulation from entering the air that your family breathes.
- **Vortica™ Blower** uses less energy than conventional blowers to deliver more air, while reducing carbon emissions and noise.

Features and components applicable to Hyperion TAM7 Series only, may vary by model and are shown for illustration purposes only.

➤ **Unique Cabinet Design** built with tough, double-wall construction and enclosed foam insulation virtually eliminates sweating and condensation. Less moisture and fewer dust particles are drawn in from garages, attics or crawl spaces, helping improve indoor air quality. The cabinet interior is also easy to clean.

➤ **Modular Design** enhances flexibility, allowing installation in tight spaces, without the need for expensive structural modifications to your home.

Rugged, Corrosion Resistant Finish protects the Hyperion from scuffs and damage, ensuring a uniform appearance for years.

Integrated Drain Pan is made from rust-resistant composites and built with a gradual slope, eliminating standing water.

Variable-Speed Motor with Comfort-R™ Technology reduces operating noise by starting gradually while eliminating hot and cold spots. Comfort-R™ also allows the careful regulation of humidity.

All Trane air handlers have a 10 year registered limited warranty on the coil and all other internal functional parts.

Registered Limited Warranty terms are available when you register within 60 days of installation. You can register online at Trane.com or by phone at 800-554-6413, otherwise Trane's Base Limited Warranty terms will apply. Base Limited Warranty information on specific products can be found on Trane.com. Ask your dealer for full warranty information at time of purchase. Warranties are for residential and multi-family use only, some exclusions may apply.

They're as hard to stop as a Trane itself.

Independent Trane dealers are as personally invested in your comfort as you are, and take great pride in creating your perfect indoor environment. They are some of the most highly trained in the business and have an extensive understanding of the movement and conditioning of air and the expertise to advise, install and maintain the right system for your home.

We Encourage Professionalism

Through Technician Certification by NATE

Ingersoll Rand (NYSE:IR) advances the quality of life by creating comfortable, sustainable and efficient environments. Our people and our family of brands—including Club Car®, Ingersoll Rand®, Thermo King® and Trane®—work together to enhance the quality and comfort of air in homes and buildings; transport and protect food and perishables; and increase industrial productivity and efficiency. We are a \$14 billion global business committed to a world of sustainable progress and enduring results.
