

Complete Home Automation
Run your home from wherever.

It's Hard To Stop A Trane.®

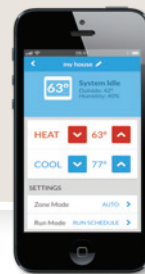

Read Only

Still innovating after all these years.

For four generations, Trane has been providing people with control over the climate in their homes by building heating and cooling systems that lead the industry in reliability, quality, and innovation. That's why consumers rate Trane the most reliable brand of heating and cooling equipment.*

Now Trane expands on its legacy, providing connected controls enabled with Nexia™ Home Intelligence that give homeowners the power to control the comfort in their homes from across the room, the other side of town, or half a world away using a smartphone, tablet or other web-enabled device. So even if your home is 100 years old, your climate control system can take you well into the future.

*Ingersoll Rand Marketing Insights, Trane Claim Consumer Survey, September 2014.

Trane ComfortLink™ II XL950 Control

Smart comfort and efficiency begins with even smarter controls.

Trane ComfortLink™ II XL850 and Trane XL824 Controls

Trane XL624 Control

Every Trane Connected Control includes Nexia Remote Climate Access.*

With Nexia™ Home Intelligence, you can remotely control your home's temperature to suit your lifestyle and reduce your energy consumption while away. All so you can connect with your home, even when you're not at home.

Control cameras, locks, alarms and more.

Your home's temperature is only the beginning. Nexia also works with hundreds of home automation accessories that allow you to create a more secure and efficient home environment.

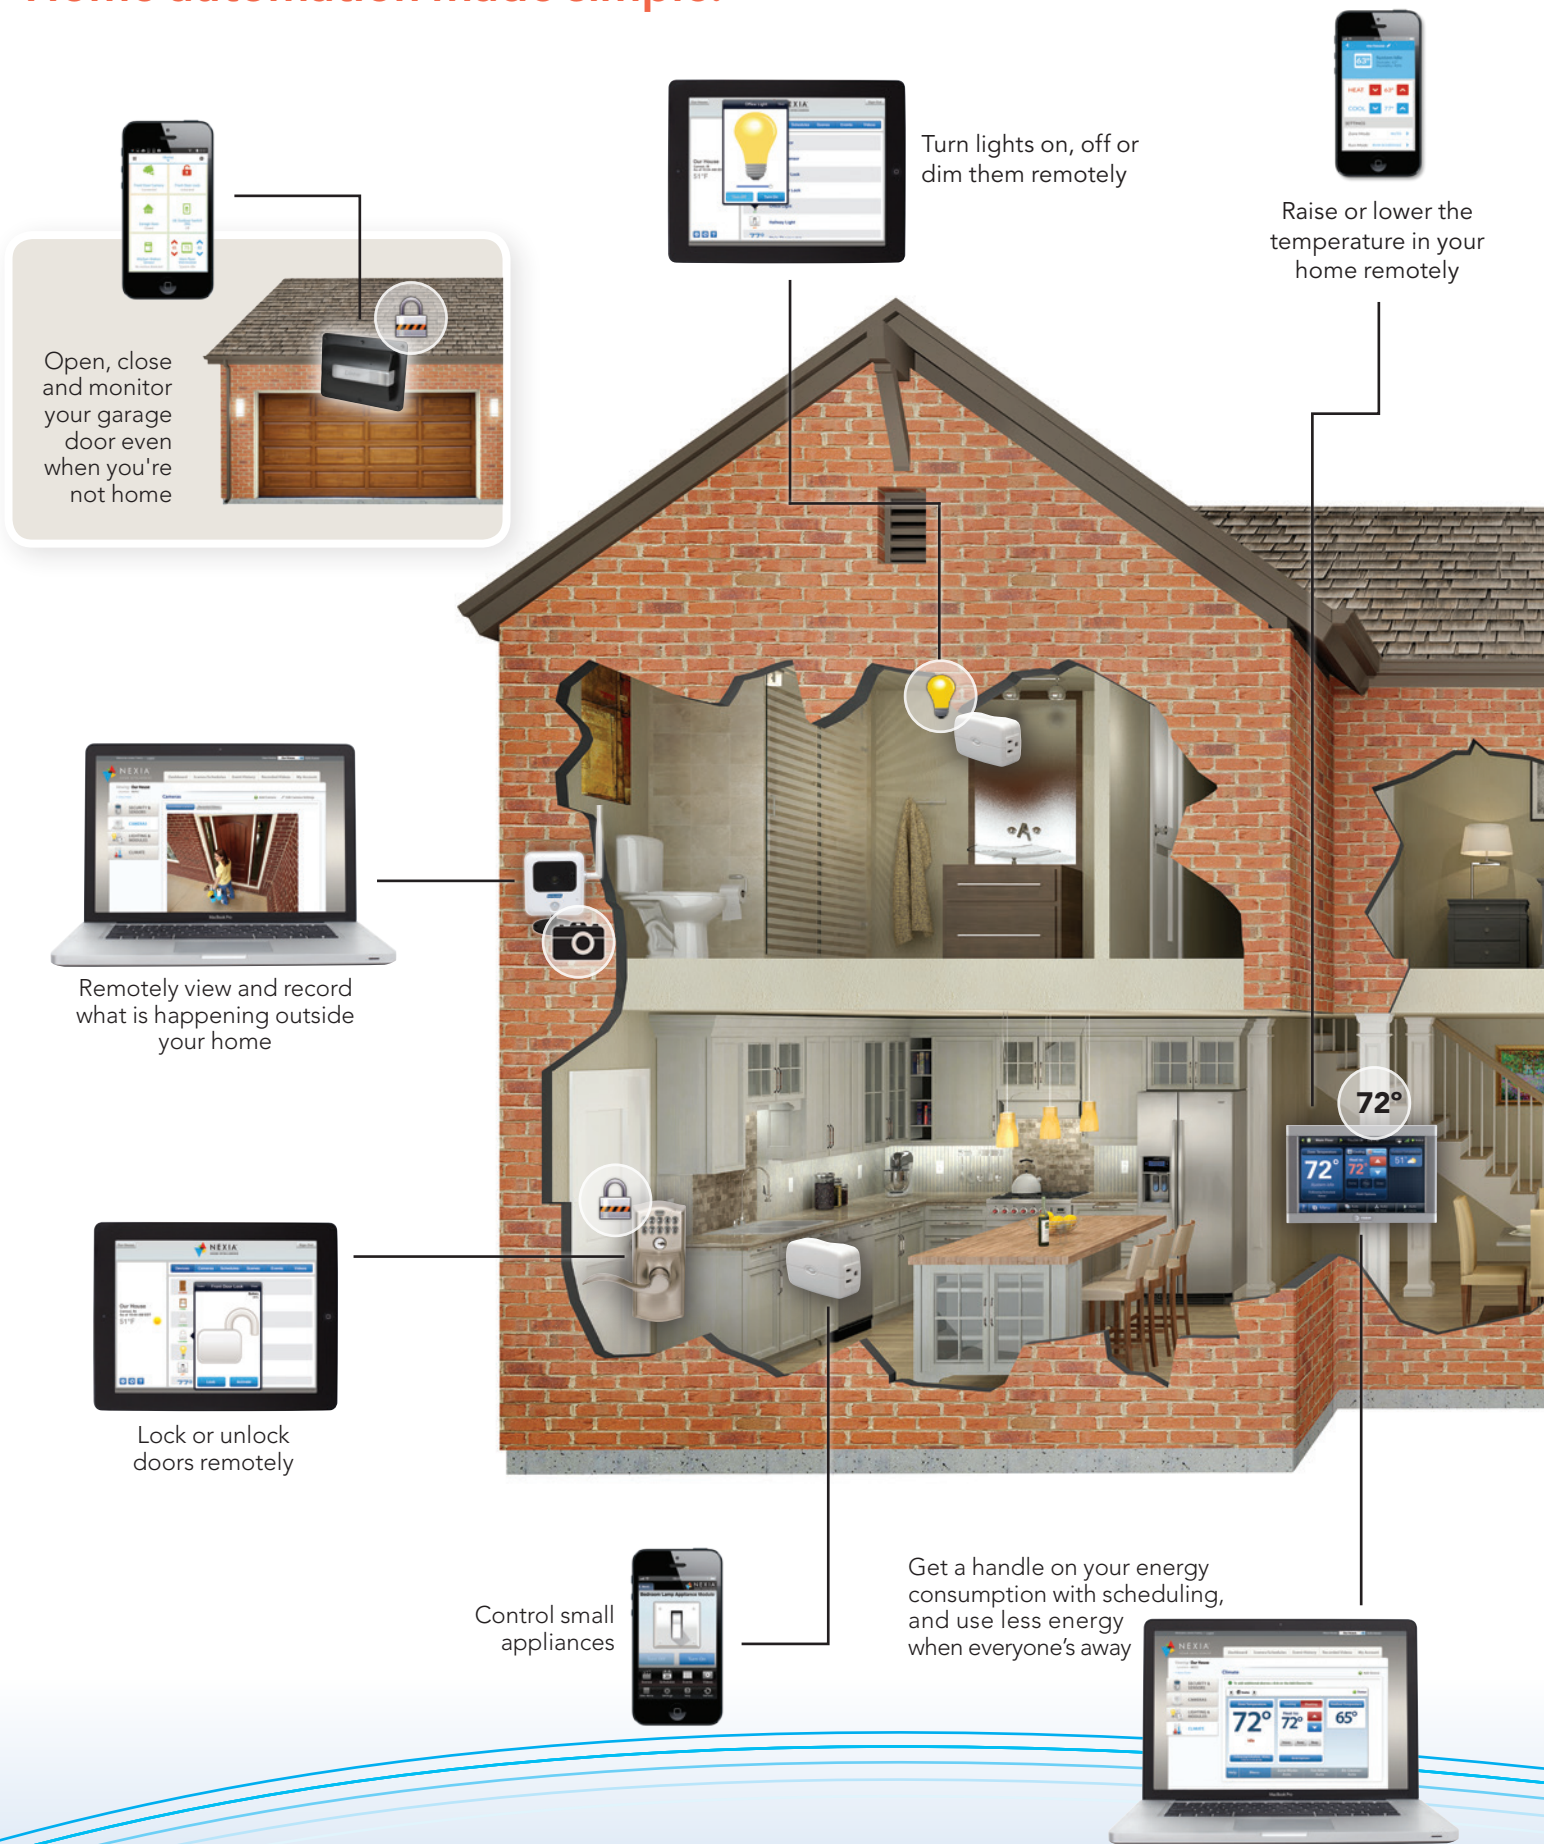

Run your home from anywhere by combining Trane connected controls with simple web access.

Read Only

*Nexia Remote Climate Access is included with the purchase of a connected control. Adding accessories to your Nexia™ Home Intelligence system requires a monthly subscription for remote access via most web-enabled smartphones and computers.

Home automation made simple.

Schedule front porch light to turn on automatically

Receive a text or email alert when smoke or carbon monoxide is detected in your home

The Nexia Bridge is the hub of the system that allows devices to connect to the web through a simple pairing process. Trane XL824 and ComfortLink™ II XL850 controls come with a Nexia Bridge inside and have the added advantage of improved pairing. A stand-alone Nexia Bridge is also available. Your independent Trane dealer can help you decide which control is the best choice for you.

Remotely view and record what is happening inside your home

Turn sounder on or off to alert intruders of a security system presence

Get text or email alerts when activity or movement is detected

Whenever you want to grow your home's connections, Nexia™ Home Intelligence can offer you a way. Ask your independent Trane dealer for details, or visit nexiahome.com.

Nexia is also compatible with Z-Wave® devices. Z-Wave® is a registered trademark of Zensys Inc. and/or its subsidiaries.

Independent Trane dealers value reliability as much as you do.

Your independent Trane dealer knows his or her reputation is made at every sale, and with every installation. Therefore, they are as personally invested in your comfort as you are, and take great pride in creating your perfect indoor environment.

Trane dealers are some of the most highly trained in the business, with advanced technical skills to optimize every installation and solve any issue. They have an extensive understanding of the

movement and conditioning of air, and the expertise to create a perfectly balanced, ultra-efficient system for every home. Trane dealers believe in doing the job right, every time. Otherwise, they wouldn't be Trane dealers.

The products they sell provide peace of mind as well, with no-nonsense warranties. Additional warranty details are available from your dealer. So relax and get comfortable. You have a Trane.

What you need to get started with Nexia™ Home Intelligence.

- Active broadband internet connection. (Controls with built-in Nexia Bridge may be connected wirelessly.)
- A valid email address.
- For mobile accessibility, an iOS, Android or Windows Phone smartphone or tablet with an internet data plan and an SMS (text messaging) plan.

Nexia Remote Climate Access is included with the purchase of a connected control. Adding accessories to your Nexia™ Home Intelligence system requires a \$9.99/month subscription for remote access via most web-enabled smartphones and computers.

What sets Nexia apart?

- No fixed term contracts or cancellation fees
- Compatible with over 400 other connected devices
 - Dedicated customer support
- Subscriber welcome program for onboarding
 - Best-In-Class Setup and Installation Wizards for consumers

Ingersoll Rand (NYSE:IR) advances the quality of life by creating comfortable, sustainable and efficient environments. Our people and our family of brands—including Club Car®, Ingersoll Rand®, Thermo King® and Trane®—work together to enhance the quality and comfort of air in homes and buildings; transport and protect food and perishables; and increase industrial productivity and efficiency. We are a \$13 billion global business committed to a world of sustainable progress and enduring results.
