Trane Thermostats and Advanced Controls

Control your comfort and efficiency with just a touch.

It's Hard To Stop A Trane.

Innovative. Comfortable. Efficient. Trane thermostats and controls

Trane believes in giving you more every time. You'll see it in our quality. In our design innovations and features. And especially in the Trane ComfortLink™ II Control, the newest addition to our outstanding line of hardworking, full-featured programmable advanced controls.

The ComfortLink™ II Control does so much more than regulate your heating and cooling. It's also a zoning control and an air quality management tool. It's a digital photo frame and up-to-the-minute weather station. It's a fashionable addition to your decor and a central planning

center dedicated to your year round comfort. All this and remote operation capability from most smart phones or web enabled computers. And perhaps best of all, it's a Trane.

Popular Mechanics

We're proud to say Popular Mechanics proclaimed the Trane ComfortLink™ II Control "One of the Most Transformative Products of 2010," awarding it the coveted Breakthrough Award.

7" Color Touchscreen

The ComfortLink™ II Control's bright, high-definition color screen is easy to read in any light.

Air Quality Management

INDUSTRY EXCLUSIVE

The ComfortLink™ II Control's Quick Clean and Allergy Clean cycles act as a temporary boost to your air filtration, maximizing clean air output for 3 hours at a time or 24 hours at a time, respectively.

Live Weather Information

INDUSTRY EXCLUSIVE

The ComfortLink™ II Control uses your wireless network to gather and display live weather data, including forecasts, radar images and weather alerts. So you always know what to expect when you open the door.

The Trane ComfortLink™ II Control. Amazingly versatile and incredibly

The Trane ComfortLink™ II Control integrates home comfort into your personal lifestyle like nothing you've ever seen before.

Digital Picture Display Capability

When not in use, the ComfortLink™ II Control can easily display a single photo or an entire slide show using a standard SD card.

Customizable Background Colors

To further integrate the ComfortLink™ II Control into your home, choose one of eight fashionable background colors for the display.

Optional Bezel Designs

Attach optional colored bezels to the ComfortLink™ II Control for a colorful designer touch. The ComfortLink™ II Control includes a silver/gray frame; or if a color change is needed, available options are silver/black, graphite, white and black.

advanced.

It's Hard To Stop A Trane.®

Main Menu

Bright, colorful, intuitive icons guide you to every important system function with just a simple touch.

Scheduling

Create heating and cooling schedules to save energy when no one is home using either guided or manual setup.

Multiple Hold Functions

For your convenience deviate from your set schedules as needed, by holding a single set temperature for hours or days at a time if you're entertaining or away on vacation.

System History

Monitor indoor and outdoor temperatures and your system use over time to better manage energy and comfort.

Alerts and Reminders

The ComfortLink™ II Control will remind you when filters need to be changed and alert you if maintenance is required, so your system is always in peak performing condition.

Dealer Information

If your system needs routine maintenance or repair, your ComfortLink™ II Control can display your dealer's contact information for easy access at your finger tips.

Every home deserves the precise, even comfort of Trane.

ComfortLink™ II 7-Day Communicating Programmable Control

The top of the line in Trane's control family, the ComfortLink™ II is an advanced command center that integrates technology and comfort into your personal lifestyle like nothing else. The ComfortLink™ II features a high-definition color touchscreen, zoning capability,

advanced scheduling, digital picture display capabilities, live weather forecasts, wireless connectivity, remote operation from most web enabled computers or smart phones and so much more. Best of all, it's a Trane, through and through.

XL900 Series 7-Day Communicating Programmable Thermostat

Trane's most advanced non-color touchscreen thermostat, the streamlined XL900 offers complete control for communicating systems. Simple to program and easy to read in any light, the XL900 features a complete 7-day

schedule, with the ability to automatically switch between heating and cooling as needed. For greater convenience, it features a real-time clock, filter reminders and system diagnostic capabilities.

XL800 Series Deluxe Programmable Thermostat

Offers many of the same touch screen features as the XL900 for non-communicating 24 volt systems. May also be removed from the wall,

allowing you to adjust the temperature from the comfort of your sofa or favorite chair.

XL600 Series Programmable Thermostat

A 5-day/2-day programmable schedule makes it simple to program separate

schedules for weekdays and weekends, custom-tuning your comfort to your lifestyle.

XR400/XB200 Series Non-Programmable Thermostat

Trane's durable, hardworking non-programmable thermostats provide large, easy-to-read numbers and one-touch

control over your comfort. A slide-out compartment holds your dealer's business card for convenience.

A truly advanced comfort system starts with a truly amazing thermostat.

What is Trane Air™?

We've devoted years to producing air that has been flawlessly conditioned and meticulously cleaned. Air that feels fresh and crisp with each breath. We call it Trane Air, and you can experience it for yourself when you install the optional industry-leading filtration of Trane CleanEffects™.

Air that's dirty and full of particulates can not only feel uncomfortable, it can cause breathing problems for family members and exacerbate existing respiratory problems like asthma and allergies. Fortunately, the exclusive .1 micron filtration of an optional Trane CleanEffects removes up to 99.98% of airborne pollutants from heated and cooled air, providing the most technologically advanced air filtration available. That's welcome relief for everyone in your home.

Clean Air Delivery Rate measures the effectiveness of air cleaning appliances. The higher the clean air delivery rate, the more effective the unit is at cleaning the room or home of airborne particles and allergens.

Typical In-room Appliance	Standard 1-inch Filter	Typical Room HEPA Appliance	Whole-House 5-inch Media Filter	Whole-House Electronic Air Cleaner	TRANE CleanEffects
Clean Air Delivery Rate: 10	Clean Air Delivery Rate: 12	Clean Air Delivery Rate: 150	Clean Air Delivery Rate: 240	Clean Air Delivery Rate: 660	Clean Air Delivery Rate: 1,200

Clean air delivery rate (efficiency times airflow rate) is recognized by the Federal Trade Commission (FTC) and the Environmental Protection Agency (EPA) as a fair and objective measure of various air cleaner technologies. Ratings reflect cubic feet per minute of clean air delivered for a typical 3-ton heating and cooling system: the higher the value, the more effective the air cleaner.

Independent Trane Dealers value reliability as much as you do.

Your independent Trane Dealer knows his or her reputation is made at every sale, and with every installation. Therefore, they are as personally invested in your comfort as you are, and take great pride in creating your perfect indoor environment.

Trane dealers are some of the most highly-trained in the business, with advanced technical skills to optimize every installation and solve any issue.

They have an extensive understanding of the movement and conditioning of air,

and the expertise to create a perfectly balanced, ultra-efficient system for every home. Trane dealers believe in doing the job right, every time. Otherwise, they wouldn't be Trane dealers.

The products they sell provide peace of mind as well, with robust, no-nonsense warranties. Additional warranty details are available from your dealer. So relax and get comfortable. You have a Trane.

Ask your dealer how to get total control from anywhere.

For an entirely new level of control, the Trane ComfortLink™ II Control and Schlage LiNK™ interface* allow you to monitor and adjust your home's temperature remotely with most web enabled cell phones or computers. Add even more peace of mind with optional security features and other Z-Wave® devices. Ask your independent Trane dealer for details.

* Requires monthly subscription fee to enable remote access.
