Over a hundred years ago, Reuben and James Trane made the decision to stand out from the crowd. To build a comfort system like no other, using uncompromising quality, innovation and reliability. Today, their legacy is found in everything Trane makes, from our premium materials to our industry-leading technology to our extensive product testing under the harshest

conditions. When you buy a Trane, you're buying a commitment from us, to you. A commitment to your total comfort, and your total peace of mind. Because that's what Reuben and James would have done.

When it comes to heating and cooling homes, people view Trane equipment as the most reliable and longest lasting in the industry.* People expect more from a leader, and Trane delivers.

- In July 2014, readers of a national product testing and research magazine rated Trane air conditioners and heat pumps as one of the most reliable brands among leading manufacturers.
- Winner of the Dealer Design Award presented by Air Conditioning, Heating & Refrigeration NEWS, the industry's leading trade publication, for the fifth year in a row.
- Winner of the David Weekley Homes' prestigious Partners of Choice Award for Service and Product Performance.

Trane XB heat pumps and air conditioners represent a serious commitment to quality, and to your comfort. They're built tough, using only premium materials, and tested in some of the most brutal conditions imaginable to make sure they keep the air in your home perfect even when the weather outside isn't. When you trust Trane, you're trusting the industry leader. So relax, and get comfortable.

*Independent 2012 HVAC Claim Study, Funded by Ingersoll Rand

You'll appreciate the energy savings from your Trane XB the day your dealer installs it, and for many years to come.

When shopping for a new system, efficiency is one of your most important considerations. An efficient system will not only lower your energy costs, it will also lower your impact on the environment.

System efficiency is measured in SEER, which stands for Seasonal Energy Efficiency Ratio. Similar to miles per gallon in a car, SEER is a measure of the overall efficiency of a complete heating and cooling system on a seasonal basis. The higher the SEER, the greater the system's energy efficiency, and the lower the overall carbon footprint of your household.

Every XB heat pump and air conditioner is a Trane, through and through.

No matter how you look at it, XB air conditioners and heat pumps represent serious value. Inside, you'll find the same dependable, proven components used throughout our lineup, including the DuraTuff™ basepans and exclusive Spine Fin™ coils used in our higher end models. If it says Trane on the outside, you'll find quality and reliability inside.

Annual savings for cooling your home

based on the efficiency of a matched system.

Like miles per gallon in a car, the higher the system SEER rating, the more comfort you will get from each energy dollar.

* Minimum efficiency established by the Department of Energy. Potential energy savings may vary depending on your personal lifestyle, system settings and usage, equipment maintenance, local climate, actual construction and installation of equipment and duct system.

Trane XB air conditioners. Cool, comfortable, and so very reliable.

1 Single-Stage Compressor

With low sound levels this compressor makes it easy to quietly cool your home.

2 Full-Sided Louvered Panels

Protects components from outdoor hazards and debris like leaves, tree branches and hail. Resists rust and corrosion to prolong the life of your unit.

3 Baked-On Powder Painted Louvers

A finish that is virtually indestructible even if metal gets dented. Maximum corrosion and rust resistant. Attractively blends with any architectural style and outdoor landscape.

4 Spine Fin™ Coil

This all-aluminum outdoor coil provides very low airflow resistance, greater heat exchanging capabilities and higher efficiency. More resistant to corrosion and leaks than traditional copper/aluminum coils.

5 DuraTuff™ Basepan

Manufactured to exacting standards and impervious to rust, corrosion, warping or cracking.

6 Corrosion Resistant Fasteners

Zinc coated fasteners resist corrosion and keep unsightly rust from discoloring your unit.

XB16
Air Conditioner

Features and components may vary by model and are shown for illustration purposes only.

XB16 Air Conditioner

When the sun's beating down, your XB16 air conditioner's SEER of up to 16.5 means you'll enjoy a cool, crisp environment and energy savings. The XB16 is efficient enough to be potentially ENERGY STAR® qualified when installed as part of a qualifying system.

XB13 Air Conditioner

You don't have to compromise on comfort with the XB13's SEER of up to 14.5. It's an economical choice that delivers years of trouble-free comfort in even the hottest climates.

The perfect indoor environment starts with a Trane matched system.

A Trane matched system is one in which every component has been carefully designed to work together to maximize comfort and efficiency. By adding perfectly balanced Trane components to your XB air conditioner or heat pump, you

can enjoy cooler, drier summers, cozier winters, and a perfectly conditioned indoor environment every day of the year. All with remarkable energy efficiency. Configure your matched Trane system today, and fine tune your comfort.

Air Conditioner: Cools your home on even the hottest days with quiet, reliable comfort.

— OR —

Heat Pump: Draws heat out of your home in the summer, and into your home during the fall and winter. Ideal for all-electric homes, or homes in milder climates.

Indoor Coils: As air passes through the coil, it serves as a "heat exchanger," working in conjunction with a furnace and heat pump to cool your home.

Thermostat: Your matched Trane system is controlled by an intelligent, reliable Trane thermostat. Programmable and non-programmable models are available to match any decor.

Furnace: Circulates cool air in the summer, and burns fuel to create and circulate warmth in the winter.

— OR —

Air Handler: Often found in milder climates, an air handler works with your XB heat pump or air conditioner to circulate air in all-electric homes.

Optional equipment to maximize your comfort and peace of mind:

Air Cleaners: Available in a variety of models, from standard filters to highly efficient air filtration systems. Add a Trane CleanEffects™ system for the ultimate air filtration available.

Energy Recovery Ventilators (ERVs): Introduce fresh outdoor air while removing stale indoor air. Efficiently transfer heat and moisture from the exchanged air for enhanced comfort and energy efficiency.

Humidifiers: Add moisture to the air to alleviate dry skin and reduce static electricity.

Nexia™ Home Intelligence: Remote climate access through Nexia™ Home Intelligence is included with the Trane ComfortLink™ II Control. Nexia allows you to adjust heating and cooling in your home, and monitor and control energy use, all from wherever you happen to be, using your smart phone or web-enabled tablet or computer.

What is Trane Air™?

We've devoted years to producing air that has been flawlessly conditioned and meticulously cleaned. Air that feels fresh and crisp with each breath. We call it Trane Air, and you can experience it for yourself when you install the optional industry-leading filtration of Trane CleanEffects™.

Air that's dirty and full of particulates can not only feel uncomfortable, it can cause breathing problems for family members and exacerbate existing respiratory problems like asthma and allergies. Fortunately, the exclusive .1 micron filtration of an optional Trane CleanEffects removes up to 99.98% of airborne pollutants from heated and cooled air, providing the most technologically advanced air filtration available. That's welcome relief for everyone in your home.

Clean Air Delivery Rate measures the effectiveness of air cleaning appliances. The higher the clean air delivery rate, the more effective the unit is at cleaning the room or home of airborne particles and allergens.

 Typical In-room Appliance	 Standard 1-inch Filter	 Typical Room HEPA Appliance	 Whole-House 5-inch Media Filter	 Whole-House Electronic Air Cleaner	 TRANE CleanEffects
Clean Air Delivery Rate: 10	Clean Air Delivery Rate: 12	Clean Air Delivery Rate: 150	Clean Air Delivery Rate: 240	Clean Air Delivery Rate: 660	Clean Air Delivery Rate: 1,200

Independent Trane dealers value reliability as much as you do.

Your independent Trane dealer knows his or her reputation is made at every sale, and with every installation. Therefore, they are as personally invested in your comfort as you are, and take great pride in creating your perfect indoor environment.

Trane dealers are some of the most highly trained in the business, with advanced technical skills to optimize every installation and solve any issue.

They have an extensive understanding of the movement and conditioning of air, and the expertise to create a perfectly balanced, ultra-efficient system for every home.

Trane dealers believe in doing the job right, every time. Otherwise, they wouldn't be Trane dealers.

Take comfort in our warranties.

The XB Registered Limited Warranty terms* include: 10 year limited warranty on compressor,† 10 year limited warranty on outdoor coil, and 10 year limited warranty

on internal functional parts. For all coverage options, check with your independent Trane dealer.

*Registered Limited Warranty terms are available when you register within 60 days of installation. You can register online at Trane.com or by phone at 800-554-6413, otherwise Trane's Base Limited Warranty terms will apply. Base Limited Warranty information on specific products can be found on Trane.com. Ask your dealer for full warranty information at time of purchase. Warranties are for residential and multi-family use only, some exclusions may apply.

† Some exclusions may apply. Please see your Trane dealer for details.

Ingersoll Rand (NYSE:IR) advances the quality of life by creating comfortable, sustainable and efficient environments. Our people and our family of brands—including Club Car®, Ingersoll Rand®, Thermo King® and Trane®—work together to enhance the quality and comfort of air in homes and buildings; transport and protect food and perishables; and increase industrial productivity and efficiency. We are a global business committed to a world of sustainable progress and enduring results.
