IMPORTANT STEPS TO

ACHIEVE BUILDING ENERGY EFFICIENCY COMPLIANCE

OREGON BUILDING PERFORMANCE STANDARD

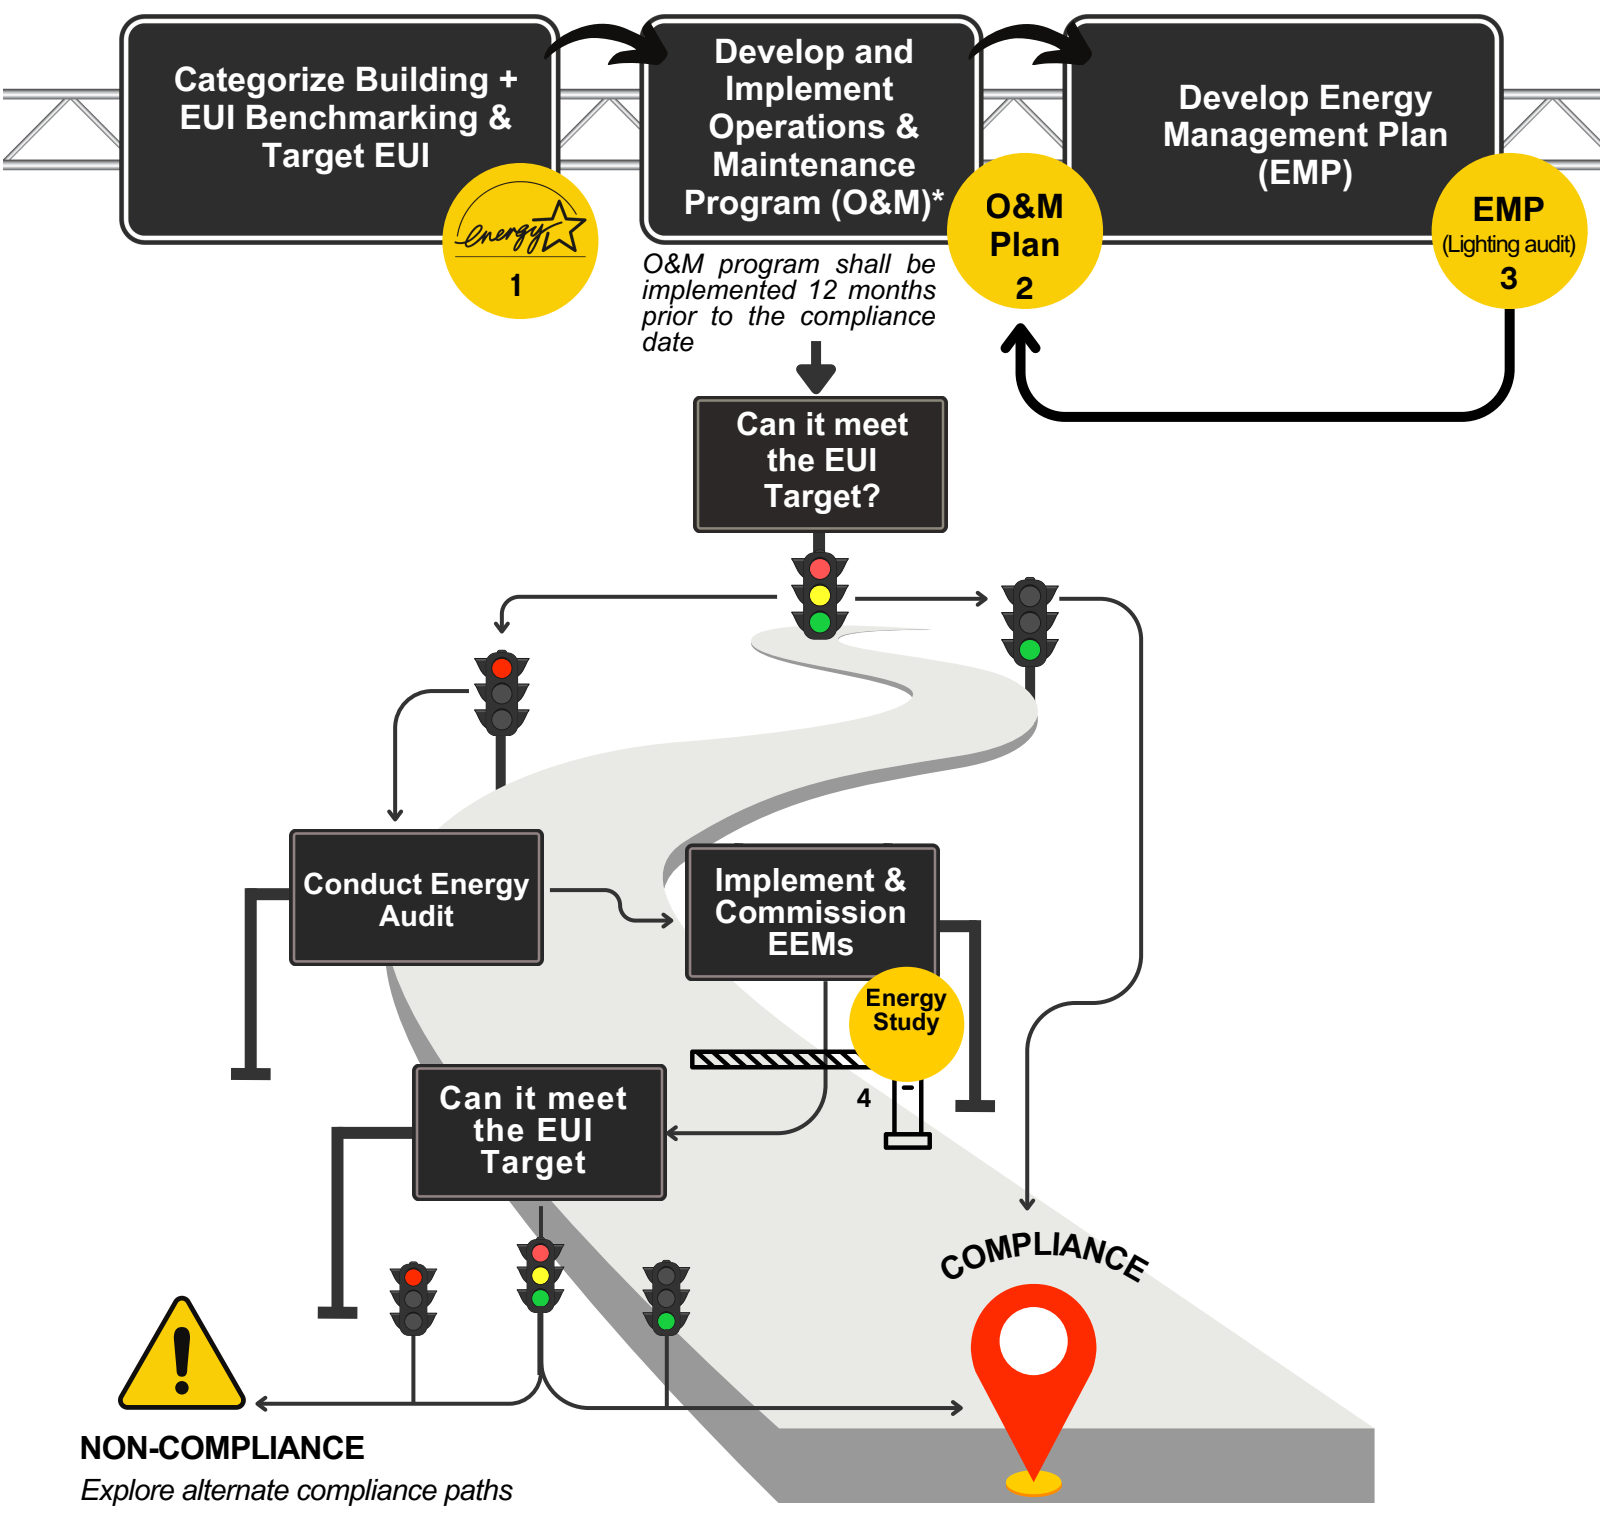

INTRODUCTION

Ensure Your Building Meets Energy Efficiency Standards

Steps to avoid fines and improve energy performance

PATH TO COMPLIANCE

WHAT CAN TRANE DO TO SUPPORT?

HOW CAN TRANE HELP?

Energy Audits: Trane offers comprehensive energy audits to determine your building's performance targets.

Energy Management Plans: Our experts can help you develop and implement a customized Energy Management Plan.

O&M Programs: Trane provides Operation and Maintenance programs to ensure your systems run efficiently.

Energy Efficiency Investments: We offer solutions and technologies to help you make smart investments in energy efficiency measures.

Compliance Documentation: Trane assists in preparing and submitting the necessary documentation to verify compliance.

IMPORTANT NOTES

1. These steps must be completed by a qualified person. (*see glossary for qualifications*)
2. Failure to comply results in fines of up to $5,000 plus $1.00/ft
3. Tier 2 buildings in Oregon do not currently face fines
4. Tier 2 building owners DO NOT need to submit an Operations & Management plan (O&M), an Energy Management Plan (EMP), or Form D, and DO NOT need to take any action if the building EUI is greater than its EUIt.

QUALIFIED PERSON

Energy Auditor: Certified professional with expertise in energy audits.

Energy Manager: Individual with credentials in energy management.

Maintenance Professional: Skilled technician with experience in building systems and necessary certifications.
