

COMFORTLINK II™ ZONING SYSTEM

Trane's ComfortLink™ II zoning system enables you to send heated or cooled air exactly where you need it, when you need it. You'll get steady, precise comfort on demand, room by room or zone by zone.

| | |
|---|---|
|  | <p>COMFORTLINK™ II XL1050 SMART THERMOSTAT</p> <p>Serves as the heart of your Trane zoning system. It's easily accessible from a smartphone, tablet or computer, which makes adjusting the temperature or energy use for your family's comfort a breeze. Plus, it's equipped with built-in Bridge for Z-Wave® devices and compatible with select third party home automation controllers: AMX, Control4, Crestron, and Savant.</p> |
|  | <p>XL1040 ZONING COMMUNICATING SENSOR WITH DISPLAY</p> <p>Acts as both a sensor and a zone thermostat. The XL1040 provides temperature data to the XL1050 smart thermostat while also allowing temperature adjustment of an individual zone. Perfect for a large room or combination of adjacent rooms.</p> |
|  | <p>WIRED ZONE SENSORS</p> <p>Provides temperature data to the XL1050 smart thermostat, allowing heated or cooled air to be directed where it's needed. The temperature in rooms with a wired zone sensor is adjusted using the XL1050 smart thermostat. Perfect for a child's room or hallway.</p> |
|  | <p>WIRELESS TEMPERATURE AND HUMIDITY SENSORS</p> <p>Functions the same as the Wired Zone Sensor with the additional flexibility of installing anywhere within the home. This sensor is powered by two AAA batteries.</p> |

TOTAL CONTROL OF YOUR HOME'S COMFORT.

The Trane ComfortLink™ II Zoning system uses a network of controls, sensors and motorized dampers to optimize temperature and humidity throughout your home. By delivering warm or cool air to the rooms that need it, this system eliminates temperature fluctuations over the course of the day and maximizes the consistency of comfort year-round. In addition, with built-in Bridge for Z-Wave® devices, your system can serve as a home automation hub to remotely control your home, comfort, and energy use from any web-enabled smartphone, tablet or computer.

SEET™ TESTED

Every Trane system is put through some of the most extreme conditions found in nature in our SEET™ [Systems Extreme Environmental Test] lab. Put through five years of severe wear and tear in just a few months, our products can stand up to the harshest environments imaginable.

UNDERSTANDING YOUR ZONING SYSTEM.

A Trane ComfortLink™ II zoning system delivers the proper airflow at the right temperature throughout your home. Unlike conventional systems that can only heat or cool the entire house at once, a zoning system directs air on a zone-by-zone basis, allowing you to control each area for customized comfort throughout. Motorized modulating dampers can be installed within your new or existing ductwork to redirect cooled air where it's needed, keeping temperatures consistent throughout your house. Whether heating or cooling, the system opens and closes dampers to send the air where it's needed.

Cooling example shown

HOW MOTORIZED MODULATING DAMPERS WORK

Trane's exclusive motorized modulating dampers work inside your ductwork by opening and closing in partial increments so you can fine-tune zoned areas for maximum comfort.

| | |
|---|--|
|  | In the summer, your Trane matched zoning system uses an air conditioner or heat pump to cool the air and a variable-speed furnace or air handler to circulate it through your ductwork. |
|  | In winter, your Trane matched zoning system uses a heat pump or variable-speed furnace to warm the air and an air handler or variable-speed furnace to move the warm air through the ductwork. |

A CLOSER LOOK INSIDE A HOME WITH TRANE COMFORTLINK™ II ZONING.

ZONE CONTROL

View and control the temperature setting for each zone in your home from the Trane ComfortLink™ II XL1050 home screen. Simply toggle the left and right arrows to view individual zones and adjust settings.

SCHEDULING

A scheduling interface makes it easy to use less energy when your home is unoccupied. Set cooling and heating temperature settings for each day of the week, up to 4 periods per day. Guided scheduling makes set up easy.

SYSTEM USAGE

A detailed history of your system's monthly and weekly runtime history makes it easy to plan your cooling & heating system's energy management.

TRANE DEALERS ARE AS HARD TO STOP AS A TRANE ITSELF.

Independent Trane dealers take great pride in creating your perfect indoor environment. They are some of the most highly trained in the business and have an extensive understanding of the movement and conditioning of air and the expertise to recommend, install and maintain the right system for your home.

WE ARE COMMITTED TO USING ENVIRONMENTALLY FRIENDLY PRINTING PRACTICES.

RUN YOUR HOME FROM WHEREVER LIFE TAKES YOU.

Nexia® allows you to manage your home remotely using most web-enabled mobile devices¹. **With just the touch of a button, you can unlock a door, turn on lights, or adjust your heating & cooling from a distance to save you energy.** Simply put, Nexia gives you home automation in the most simple and accessible way. All so that you can connect with your home, even when you're not at home.

¹Nexia Remote Climate Access is included with the purchase of a connected control. Adding accessories to your Nexia system requires a monthly subscription for remote access via most web-enabled smartphones and computers.

WHY IS INDOOR AIR QUALITY IMPORTANT?

We spend 90% of our time indoors, and 70% of that is in our home² where the air can be up to 5X poorer quality than the air outside³. To help improve your indoor air, Trane offers a complete portfolio of air filtration equipment for whole home solutions for new and existing units.

TRANE CLEANEFFECTS® AIR CLEANER

Utilizes patented technology to deliver cleaner air to the whole home by removing up to 99.98% of airborne particles⁴ that pass through the re-usable filter, including 99.9% of the Influenza A (H1N1) virus⁵. This level of filtration makes it up to 100X more effective than a standard 1" filter⁶. Plus, it's the ONLY whole-home electronic air cleaner that is certified **asthma & allergy friendly**⁷ by the Asthma & Allergy Foundation of America.

ENERGY RECOVERY VENTILATORS (ERV)

Provide an energy-efficient way to exchange air inside your home with fresh air from outside, removing lingering odors like cooking smells while improving overall air quality.

HUMIDIFIERS

Provide the right amount of moisture to the air throughout your home, adjusting from summer to winter.
