DISCOVER THE FUTURE OF HOME COMFORT WITH LOW PROFILE HEAT PUMPS

PREMIER		Using the latest, most advanced technology to push the boundaries in delivering truly controlled, truly premier comfort.
	19 Multi-Speed Low Profile Cold Climate Heat Pump	Up to 20.2 SEER2 / 9.5 HSPF2
	19 Multi-Speed Low Profile Heat Pump	Up to 19.5 SEER2 / 9.5 HSPF2
PRIORITY		Prioritizing whole-home comfort through advanced features working together to create enhanced comfort.
	17 Multi-Speed Low Profile Cold Climate Heat Pump	Up to 18.6 SEER2 / 9.1 HSPF2
	17 Multi-Speed Low Profile Heat Pump	Up to 19.5 SEER2 / 9.4 HSPF2
CHOICE		The best choice for quality products with modern capabilities and optionality.
	16 Multi-Speed Low Profile Cold Climate Heat Pump	Up to 19.0 SEER2 / 10.0 HSPF2
	16 Multi-Speed Low Profile Heat Pump	Up to 16.0 SEER2 / 8.1 HSPF2

Discover the next generation of home comfort with low profile heat pumps from Trane® — engineered to be quiet, compact, and stylish while providing efficient, reliable, and environmentally friendly heating and cooling. Using advanced refrigerant technology, these systems seamlessly transfer heat to deliver year-round comfort—warming your home in winter and cooling it in summer by simply reversing the refrigerant flow. Whether you're installing a new unit or replacing an existing one, our heat pumps offer superior performance and hassle-free convenience, making them the ideal solution for maintaining a comfortable home in any season.

FLEXIBLE INSTALLATION OPTIONS

Designed to fit where traditional units can't, low profile heat pumps can be installed under windows, decks, or mounted along your home's exterior—even in areas with limited clearance.

A SMART REPLACEMENT FOR AC & FURNACE

Thinking about upgrading your home's comfort? Low profile heat pumps can often replace your current air conditioner or furnace.

COMPACT DESIGN, POWERFUL RESULTS

You get the same dependable performance as traditional heat pumps—packed into a smaller, less visually intrusive unit that blends seamlessly with your home's exterior.

TRUSTED LONGEVITY

With routine maintenance, low profile heat pumps can provide 10 to 15 years of reliable comfort, comparable to standard heat pumps.

COLD CLIMATE HEAT PUMPS

When winter temperatures plunge, you need a heating solution that's up to the challenge. Trane's cold climate heat pumps are designed to deliver dependable comfort right when you need it most. Unlike traditional systems, these advanced heat pumps use innovative inverter and variable speed compressor technology to maintain efficiency and reliability—even in the harshest conditions.

Trane's full lineup of cold climate-friendly heat pumps provides energy-efficient heating that keeps your home warm and comfortable while helping you manage your utility bills. With the ability to perform effectively in very low temperatures, these systems meet the growing demand for electric heating solutions and offer peace of mind no matter how cold it gets outside.

A CLOSER LOOK:

16 Multi-Speed Low Profile Cold Climate Heat Pump

Compact Design

Featuring a sleek, compact design and side discharge configuration, these units offer flexible installation in tight spaces while maintaining exceptional performance.

Energy Efficiency

Engineered with advanced technology, these units deliver optimal heating and cooling while minimizing energy consumption.

Quiet Operation

Designed with quiet operation in mind, these units minimize noise to help maintain a peaceful, comfortable home environment.

Durable Construction

Built to last, our heat pumps feature robust construction and high-quality materials. With weather-resistant components and a sturdy design, you can trust that your system will withstand the elements and provide reliable performance for years to come.

Smart Technology

Integrated smart technology enables easy connectivity and control, allowing seamless adjustment and performance monitoring with compatible Trane thermostats.

Versatile Performance

Offering year-round, eco-friendly heating and cooling, these all-electric systems help reduce your carbon footprint and increase energy efficiency—potentially lowering utility bills. For added flexibility, pairing with a gas furnace in a dual fuel setup ensures optimal comfort in any weather.

Certain Trane Low Profile Heat Pump models are engineered to work specifically with designated air handlers or coils, while others offer flexible pairing options. For details about available combinations for each model, please contact your local Trane dealer.

WHY IS INDOOR AIR QUALITY IMPORTANT?

We spend 90% of our time indoors, and 70% of that is in our home¹ where the air can be up to 5X poorer quality than the air outside². To help improve your indoor air, Trane offers a complete portfolio of air filtration equipment for whole home solutions for new and existing units.

TRANE CLEANEFFECTS® AIR CLEANER

Utilizes patented technology to deliver cleaner air to the whole home by removing up to 99.98% of airborne particles³ that pass through the re-usable filter, including 99.9% of the Influenza A (H1N1) virus⁴. This level of filtration makes it up to 100X more effective than a standard 1" filter⁵. Plus, it's the ONLY whole-home electronic air cleaner that is certified **asthma & allergy friendly**⁶ by the Asthma & Allergy Foundation of America.

Trane CleanEffects® is verified zero ozone producing so you can breathe easier knowing your air is free from harmful byproducts.⁶

ENERGY RECOVERY VENTILATORS (ERV)

Provide an energy-efficient way to exchange air inside your home with fresh air from outside, removing lingering odors like cooking smells while improving overall air quality.

HUMIDIFIERS AND DEHUMIDIFIERS

Deliver the right amount of moisture to the air throughout your home, adjusting from summer to winter.
